

Powering the Future of Electric Vehicles: Specialized EV Battery Testing Solutions

About Us

At MTSC, we understand the crucial role of reliable and comprehensive testing in ensuring the safety and performance of Electric Vehicle Batteries.

Leveraging our cutting-edge autonomous testing laboratory and decades of expertise, we offer specialized solutions for all your EV battery testing requirements.

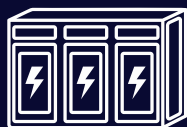

ECE R100

ECE R136

IEC 62133

UN38.3

Why Choose Us?

Our EV Battery Testing Services Include:

ECE R100 & ECE R136 Compliance Testing: Ensure your batteries meet international standards for electrical and fire safety.

UN38.3 Transportation Testing: Validate battery safety during shipping and handling.

IEC 62133 Compliance Testing: Adhere to safety requirements for portable lithium-ion and nickel-based batteries.
